ADVICE TO FOLLOW DURING AND AFTER A FLOOD

Simple measures that cover the essential aspects

RESIDENTS

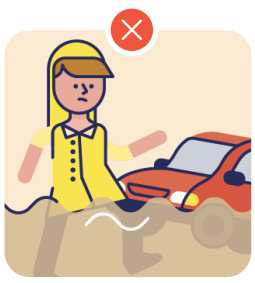

DURING

I stay informed and follow the safety instructions in the media and on social networks by subscribing to the **official accounts:**

–

Prefectures, Town Halls, Episeine, etc.

I do not walk or drive into a flooded area.

I stay alert and **help** the **most vulnerable** people around me.

If I have to evacuate, I think about an **alternative accommodation solution for several days or even weeks** with friends or family.

–

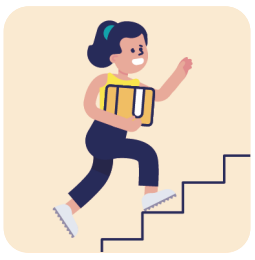

If I have no other option, I could be accommodated in an emergency shelter.

I pack my suitcase with the essential items:

–

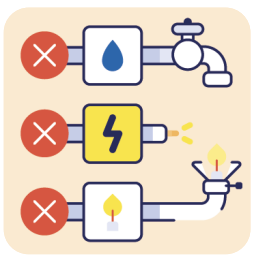

identity documents, water, first aid kit, medicines, food, insurance papers, telephone, etc.

I move sensitive, valuable or polluting objects to a higher floor or relocate them elsewhere.

–

I do not forget the cellar or the garage!

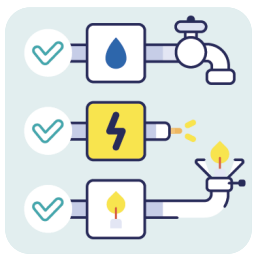

I turn off the gas, water and electricity **before evacuating.**

–

If I live in an apartment building, I check that my caretaker or the representatives of the building owner's association has taken care of this.

AFTER

I return to my housing and reconnect the utilities only when **authorised to do so** by the **authorities or professionals.**

Before cleaning, discarding or drying, **I compile a photo file** for the insurance company, which I contact without delay.

I protect myself before handling flood waste.

I visit my neighbours to see **if I can help.**

Now that you know what to do in the event of flooding, put it into practice!

Simple measures that cover the essential aspects

BUSINESSES

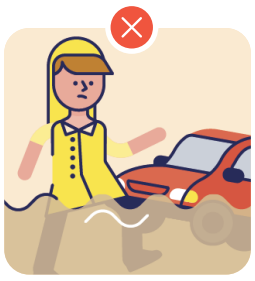

DURING

I stay informed and follow the safety instructions in the media and on social networks by subscribing to the **official accounts:**
-
Prefectures, Town Halls, Episeine, etc.

It is **my responsibility to ensure the safety** of my employees in the workplace.

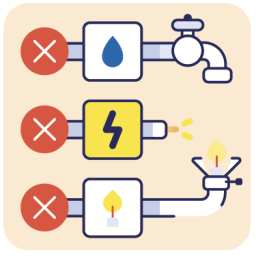

I prohibit all my employees from walking or driving in a flooded area.

I protect what is essential to my business: I move sensitive, valuable or polluting equipment to a higher level or relocate it.

I ensure that my vehicles are parked outside the flood zone.

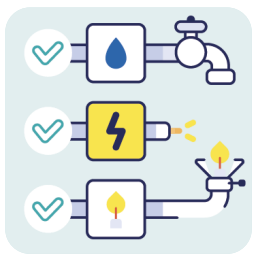

I turn off the gas, water and electricity **before evacuating.**

If I can, I will **do my bit** to show **solidarity** and provide **assistance** to people and companies in need.

AFTER

I return to my premises and reconnect the utilities only when **authorised to do so** by the **authorities or professionals.**

Before cleaning, discarding or drying, **I compile a photo file** for the insurance company, which I contact without delay.

I protect myself before handling flood waste.

If I can, **I help** people and businesses in need:
temporary hosting, provision of internet/telecom services, etc. And I make it easier for my employees to get back to work.
